Dear Safety Professionals and Colleagues,

Our agency hired Karl Mecklenburg to be our keynote speaker at our annual 2011 Wyoming Safety Awards Conference after seeing his successful presentation at the 2010 VPP Conference in Denver. He was the most popular speaker that we have ever had and his presence drew in a large crowd. Mr. Mecklenburg tailored his presentation for our program and did a great job of entertaining our diverse array of attendees and award winners. His stories allowed him to relate to and impact everyone in the room. Karl amazed us with his ability to relate the Six Keys to Success directly to our goal of "improving safety in the workplace" and he used his interesting and humorous stories to illustrate these connections. The feedback we have received has all been very positive. In my position I have the opportunity to attend many presentations, and it is very rare to find a speaker who connects with an audience as well as Mecklenburg does. He is authentic, humorous, insightful, and easy to work with.

Many of the safety professionals that attended are inspired by Karl's commitment to excellence and his integrity as much as with the content of his presentation. Our attendees and staff enjoyed interacting with Karl before and after his presentation. After the awards ceremony, he remained to sign autographs and pose for photos with our people, but more than that he was in the lobby, at the restaurant, wherever our attendees gathered, answering questions and listening to our stories as well as telling more of his own. We really appreciate his willingness to share his expertise with us and I treasure the signed picture that hangs on my wall and continues to provide inspiration to excel.
