Meeting Planners,

Veolia Environmental Services recently had Karl Mecklenburg speak at our 2014 annual meeting. Karl gave a great presentation that specifically targeted our needs. Since our organization is spread out, with offices across the Mid-Atlantic region, most of the contact we have is either by email or telephone. Mr. Mecklenburg's message of teamwork and leadership came to the heart of this meeting as we gathered for the purpose of team building and strategic planning. I have had many people comment on how much they enjoyed Mr. Mecklenburg's program. He addressed a diverse audience including front line entry level field personnel/warehouse staff, administration personnel, account managers, middle management and senior management guests. Karl's memorable and humorous stories touched our people both personally and as Veolia team members. He made himself available for photographs, autographs, and interacted with us before and after his presentation. Karl was a pleasure to work with and I will be recommending him for other Veolia events.

Bob Rath,
General Manager, Mid Atlantic Region
VeoliaES Technical Solutions, L.L.C.
