

Highland Park

COMMUNITY CHURCH

February 12, 2015

Dear Karl,

We would like to thank you for coming to Highland Park Community Church for our Men's Ministry "Super Saturday" event on January 24th. We received a lot of good feedback from the men who attended and everyone really enjoyed your presentations. It was beneficial to hear from someone whom the men look up to that you had things you struggled with and had to rely on God's healing power to get you through.

We would highly recommend you as a presenter to other men's ministries who have similar events. Your message is appropriate for the men of today's society to let them know that just being tough is not enough. Men need to know that having a tender heart for God is **manly**.

May God bless you as you carry your message to men and groups God places on your path.

We love and appreciate you Brother!

Sincerely,

Pastor Chris Kinner
