

July 17, 2017

Karl Mecklenburg joined us for the annual BioZyme Dealer Retreat this year in St. Joseph, Missouri. His mission was to wrap up our time together with our dealers and he did so with a keynote speech that was perfectly on point!

This event hosts our top product dealers from around the country each year to honor them, educate them and give them an opportunity to network and participate in shared learning. Karl's presentation sent our small business partners back to their dealerships motivated and ready to use the information they had learned at the conference.

Karl's relaxed and genuine presentation style was a perfect fit for our dealers who said that this year's speaker was, without a doubt, our best yet!

Karl was easy to work with, great with our attendees, and happy to do whatever he could to help us serve our dealers.
