

March 4, 2013

Ag Association Leaders,

Karl Mecklenburg provided the keynote address for the Colorado Corn Growers Association 2013 Annual Banquet in January. Attendees, which included Directors, members, sponsors, Legislators and other industry partners thought the presentation was entertaining but also had great motivational points that could be applied directly to their farming business and personal lives.

It was a great fit for our industry this year, considering the tough growing conditions and was a great way to send producers off motivated and ready to overcome whatever challenge's life would throw at them in the coming year.

Mecklenburg met our expectations with a terrific speech and did great interacting with our members, arriving early and staying afterwards to shake hands, pose for photos and sign autographs.

We have received great feedback from attendees:

*"I really enjoyed listening to Karl."*

*"It was great that he was willing to pose for photos and provide autographs!"*

*"His stories were very interesting."*

Karl was professional and very easy to work with. I recommend Karl Mecklenburg as a terrific general session or keynote speaker for Ag Associations.

Sincerely,
