

June 5, 2009

To Whom it May Concern:

Karl Mecklenburg gave the keynote address for our 2009 annual conference and was a big hit with our group. The Colorado Safety Association is a diverse group with members from across government, education, and corporate Colorado. Karl's customized presentation applied to each member's situation with take home advice and "me too" moments for all. His presence on our agenda helped with attendance. He was funny, well organized, easy to work with, prompt, and took the extra time to speak personally with, and sign autographs for our attendees.

I highly recommend Karl Mecklenburg as a keynote speaker for your association.

Melodye A. Turek
President
Colorado Safety Association
